**SOMMERCAMP**  
**EHRENFRIEDERSDORF**

**INVITATION**

## Good luck - friends of grassskiing from all over the world

The Grasski Team Erzgebirge and the ski club of Ehrenfriedersdorf invite the offspring of the international grassskiing community to come to the FIS children camp 2018 in the Ore Mountains.

Our team, the ski club and the city of Ehrenfriedersdorf and many voluntary supporters have been working for more than two years, in order to grant the young athletes the best conditions during the camp and the following races of the FIS children cup.

From the experience of the last years, we tried to pool the positive experiences in our event.

As accommodation we use the local youth hostel in Hormersdorf where we have the possibility to stage more than 100 people. This means, that we have enough space not only for all athletes and trainers, but also we can accommodate the attendants and family members of the young athletes. Moreover the youth hostel is only about 800 metres away from an artificial lake, and the entrance fee for the beach is included in the fee for the camp, but we need to have a bathing permission for each child (at the end of the announcement, under <http://grasski.team/camp>)

The opening ceremony will take place on the marketplace of Ehrenfriedersdorf.

The training and races will be hosted on the skiing slope "an der Hühnerfarm" in Ehrenfriedersdorf. The slope is less than 15 minutes away from the accommodation and most of the kids should have gained some experience on this slope already, due to the FIS children cup races on the slope in the former years. After extensive investments and a lot of work in the area and the lift, the facility shines in a new light.

The program during the training days is given by us. There will be five training areas on and off the slope during the training session in the morning. Here we will do exercises to improve our technical abilities, especially suited to the knowledge, the participants already have, so that we have the possibility to include also beginners and late starters born in 2001/02 and train with them individually.

After the lunch break, with the option of a short stay in the swimming pool of the city, we will bring the technical improvements in to the course, with race training in slalom and giant slalom.

The trainers of the national teams will be included in this procedure. This will already begin with the warm up in the morning, which should be organised from a different nation each morning. .

In order to present our homeland, we will visit a former local mine in Ehrenfriedersdorf.

The races of the FIS children cup and a small and atmospheric closing ceremony will end the FIS children camp. In the races, the winners in slalom, giant slalom and gymkhana /cross will be awarded.

We ask all interest, to register early for the camp, in order to support us in our planning. The total fee for the camp is 300,-€, for trainers and attendants, the price will be 240,-€, both with full plate. When there are six actives from a nation, one trainer can participate for free. This does also apply for new members in the grassskiing community. The closing date of the registrations is the 10<sup>th</sup> of July 2018, and we allow ourselves to apply a fee of 30,-€ for each participant registered after this date.

Welcome to the Ore Mountains!

Organisation team GTERz and ski club of Ehrenfriedersdorf
